SAMPLES

We are happy to provide swatches of our glaze colors free of charge (plus a small shipping fee). Physical samples of our catalog products are available for evaluating on a short-term loan basis and require a credit card to secure in the event of damage or failure to return. Please fill out the product loan form on page 2 and submit via email to hello@pigeontoceramics.com. Customer is responsible for paying all shipping and handling charges for the samples. Please note our work is thrown to order and will have a fulfillment time of about 3 weeks, depending on stock levels and volume of samples requested.

HOW TO ORDER

1/ Submit a copy of your business card or other proof of profession along with your US Business License to hello@pigeontoceramics.com
2/ Upon approval your order can be submitted at any time to the same email address. Please use the order form that can be found on page 3. A confirmation invoice with shipping charges and an estimated fulfillment date (minimum 5 weeks from order) will be sent back within 36 business hours.

NOTE: All opening orders must be pre-paid. Future orders can be paid upon ship date for qualifying buyers. We do not currently offer terms. We accept payment via Visa, Mastercard, American Express, Discover, Paypal or company check. Production begins upon clearing of funds. All orders shipped via UPS. Locally, studio pick-up is available or delivery within the Portland metro area for a small fee. Shipping via postal mail is available as a more economical freight option to our overseas customers. For international orders, duties, taxes and tariffs are the responsibility of the customer and are billed to the recipient.

CUSTOM DESIGNED WORK

We love working on special projects, please email us to discuss. We are not currently accepting any private-label manufacturing projects (meaning, if you have a preexisting design that you simply want to produce in ceramic we're not the right fit. If you're working on a house or restaurant, love our style and want to hire us to design and fabricate for your space – by all means email!). Custom work is not subject to the trade discount in order to recoup our design and prototyping time.

I understand that failing to return the products in the condition that they were received (includes any and all damage (including but not limited to stains, tears, chips, cracks, or any signs of use) that would prevent selling the product all full price in our store) will result in the above card being charged for the full retail product value listed on the loaned products list.
